

Homography calibration chessboard

10 x 7 squares of 3.00 in (9 x 6 inner corners), with a 3 in white border: 36 x 27 in overall.

Set SQUARE_SIZE_INCHES = 3.0 in eocvsim/homography (or the measured size, see step 6).

1. Print pages 2-19 at Actual size / 100% (not Fit to page). Both scale bars on every page must measure exactly 6.00 in; if not, fix the printer scaling and reprint.
2. Neighbouring tiles both print a 1/2 in band around their joint, marked by red ticks.
Trim each tile's margin anywhere between its ticks; aim for the middle tick, but the cut doesn't need to be accurate, only roughly straight.
3. Starting from A1, lay each trimmed edge over its neighbour's band. Slide it until the square edges run straight across the cut, then until both lines of every grey X do too.
Tape it, check the X marks again, and glue. A window behind the sheets helps.
4. Mount the whole board on foam board or a flat panel. It must be flat.
5. Measure several squares across joints and set SQUARE_SIZE_INCHES to the average.

Use: long side pointing away from the camera, near edge 3-6 in inside the camera's view, with the whole white border visible.

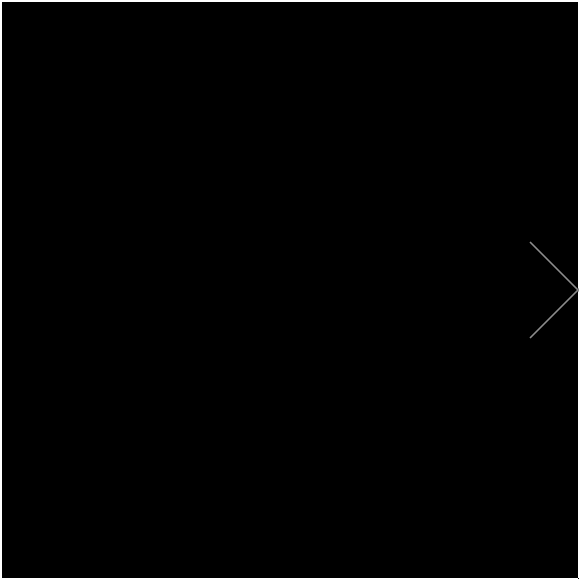

Tile A1

Top-left tile: nothing to trim.
Its right/bottom bands go under A2 and B1. Print at Actual size / 100%.

6.00 in:

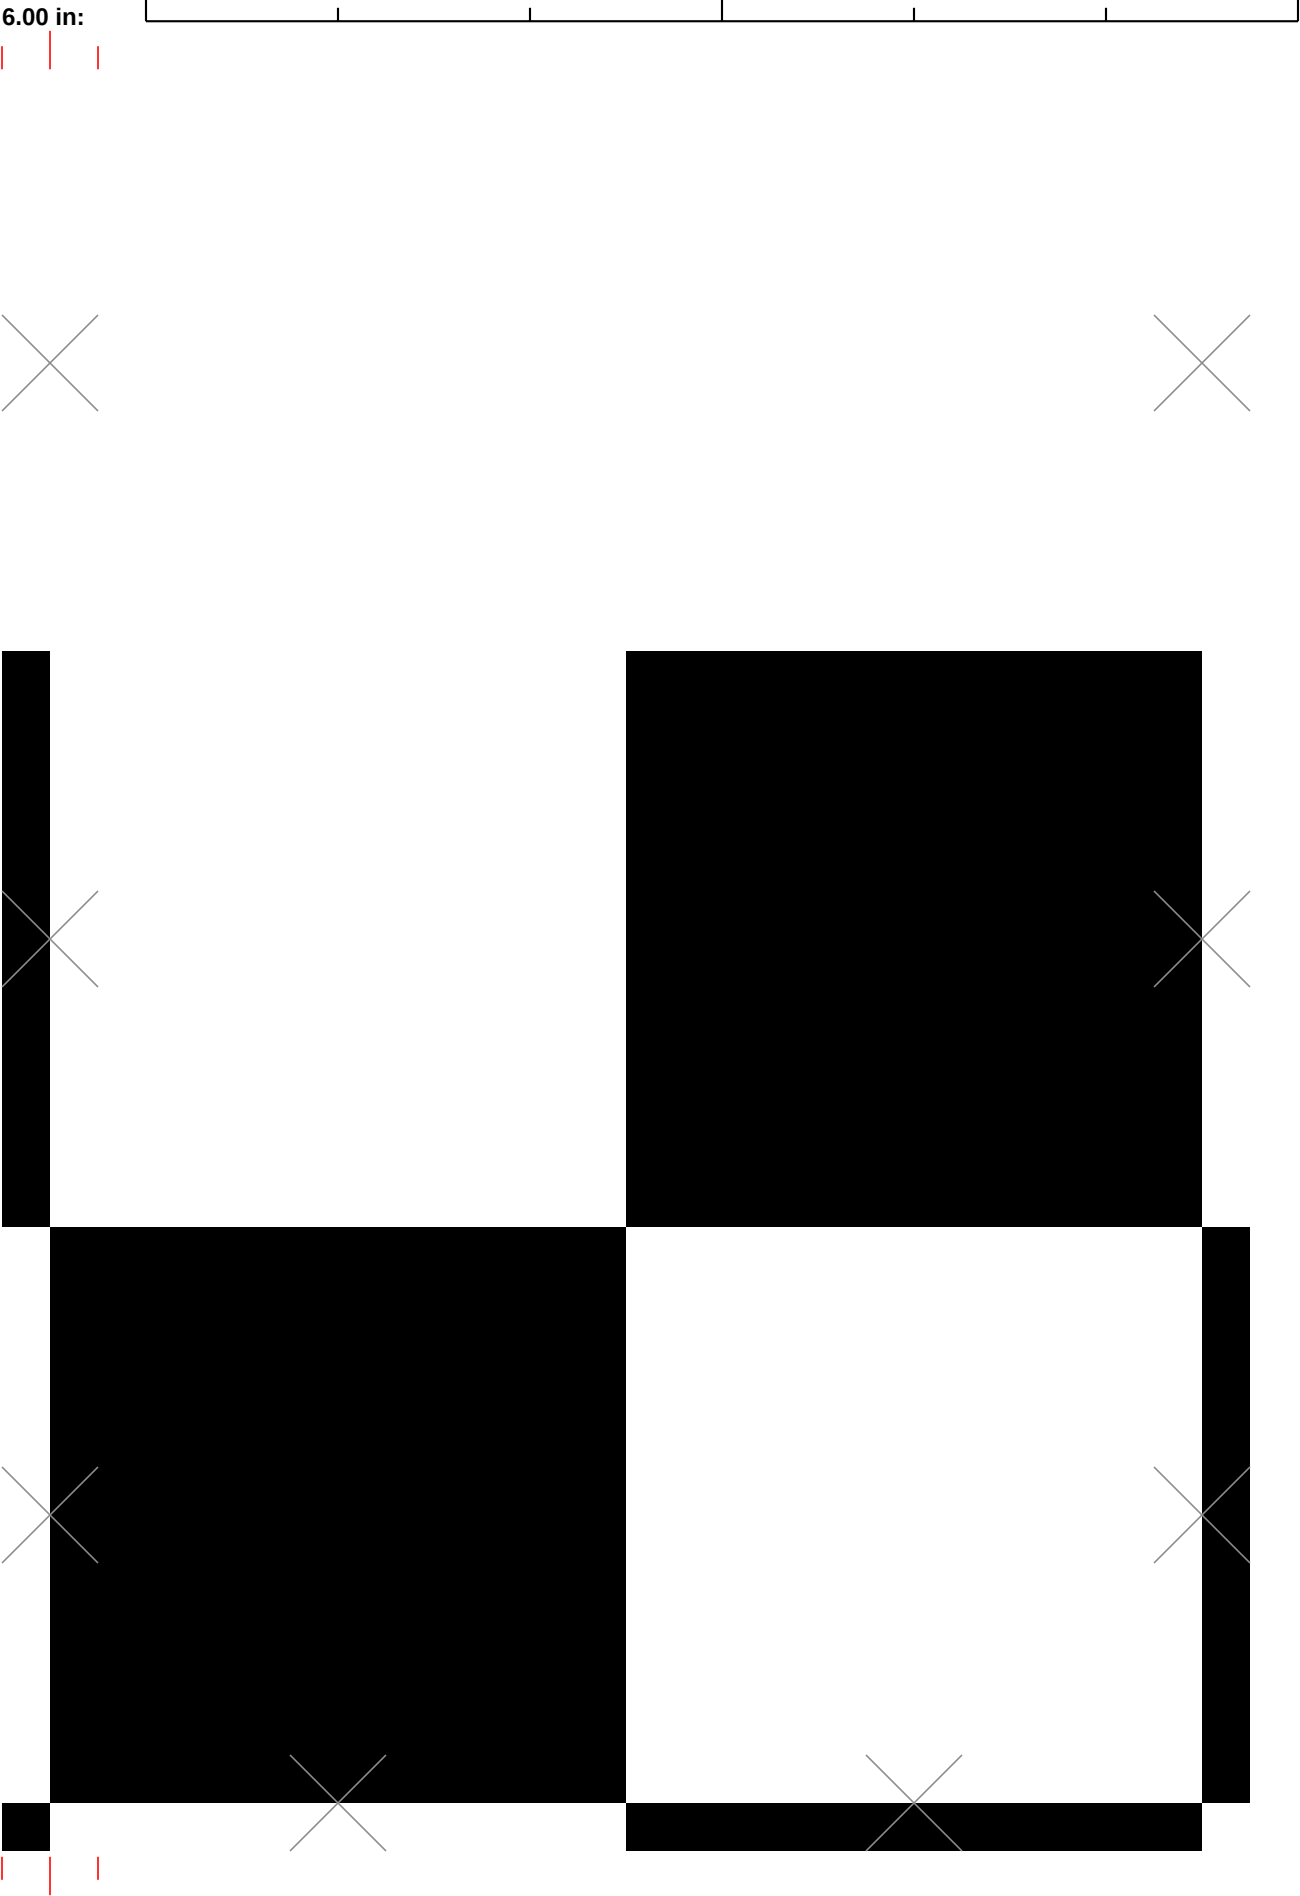

= 6.00 in

Tile A2

Trim the left margin anywhere between the red ticks; lay over A1 (left).
Its right/bottom bands go under A3 and B2. Print at Actual size / 100%.

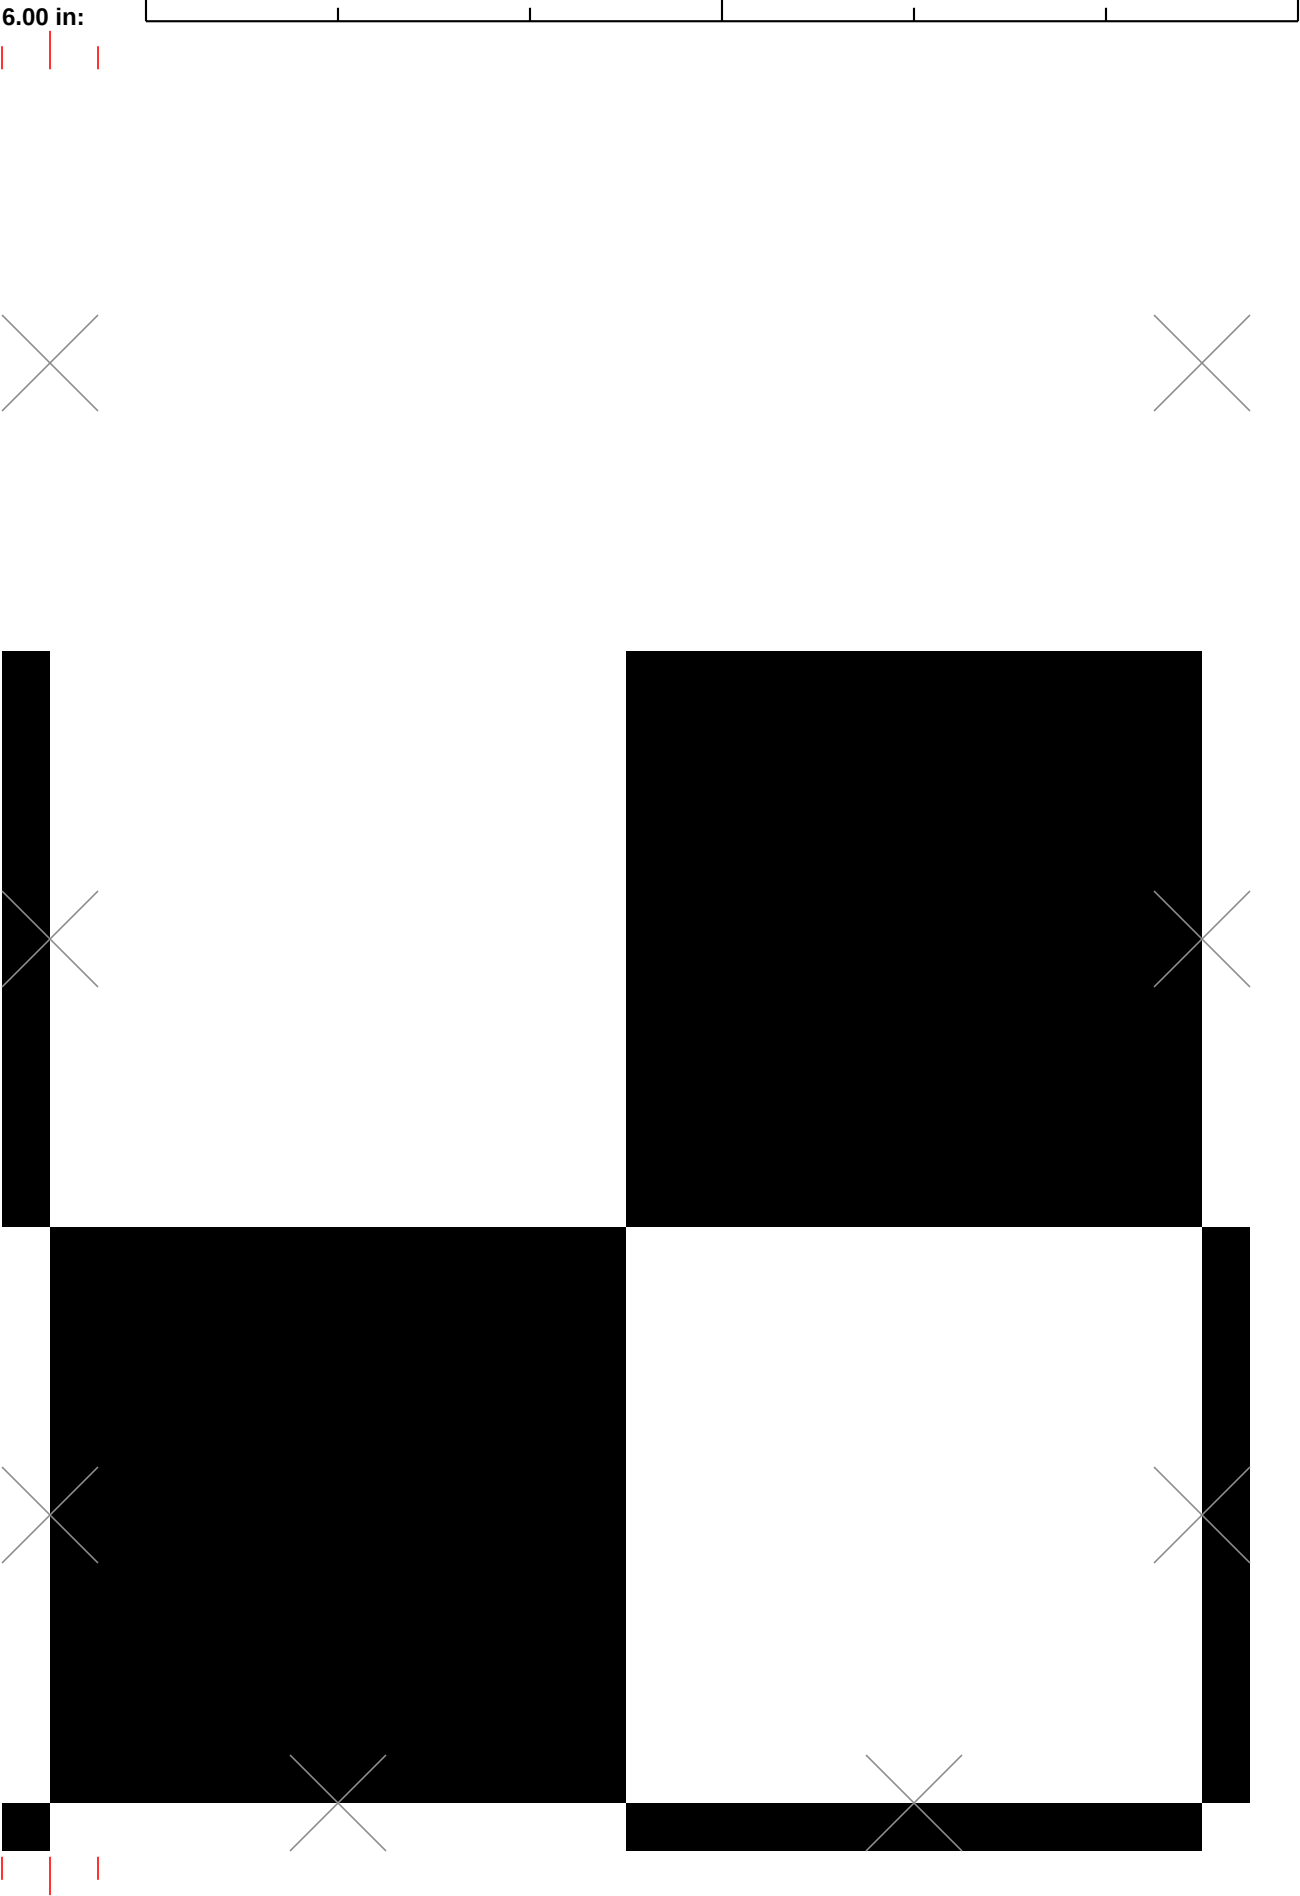

6.00 in:

Tile A3

Trim the left margin anywhere between the red ticks; lay over A2 (left).
Its right/bottom bands go under A4 and B3. Print at Actual size / 100%.

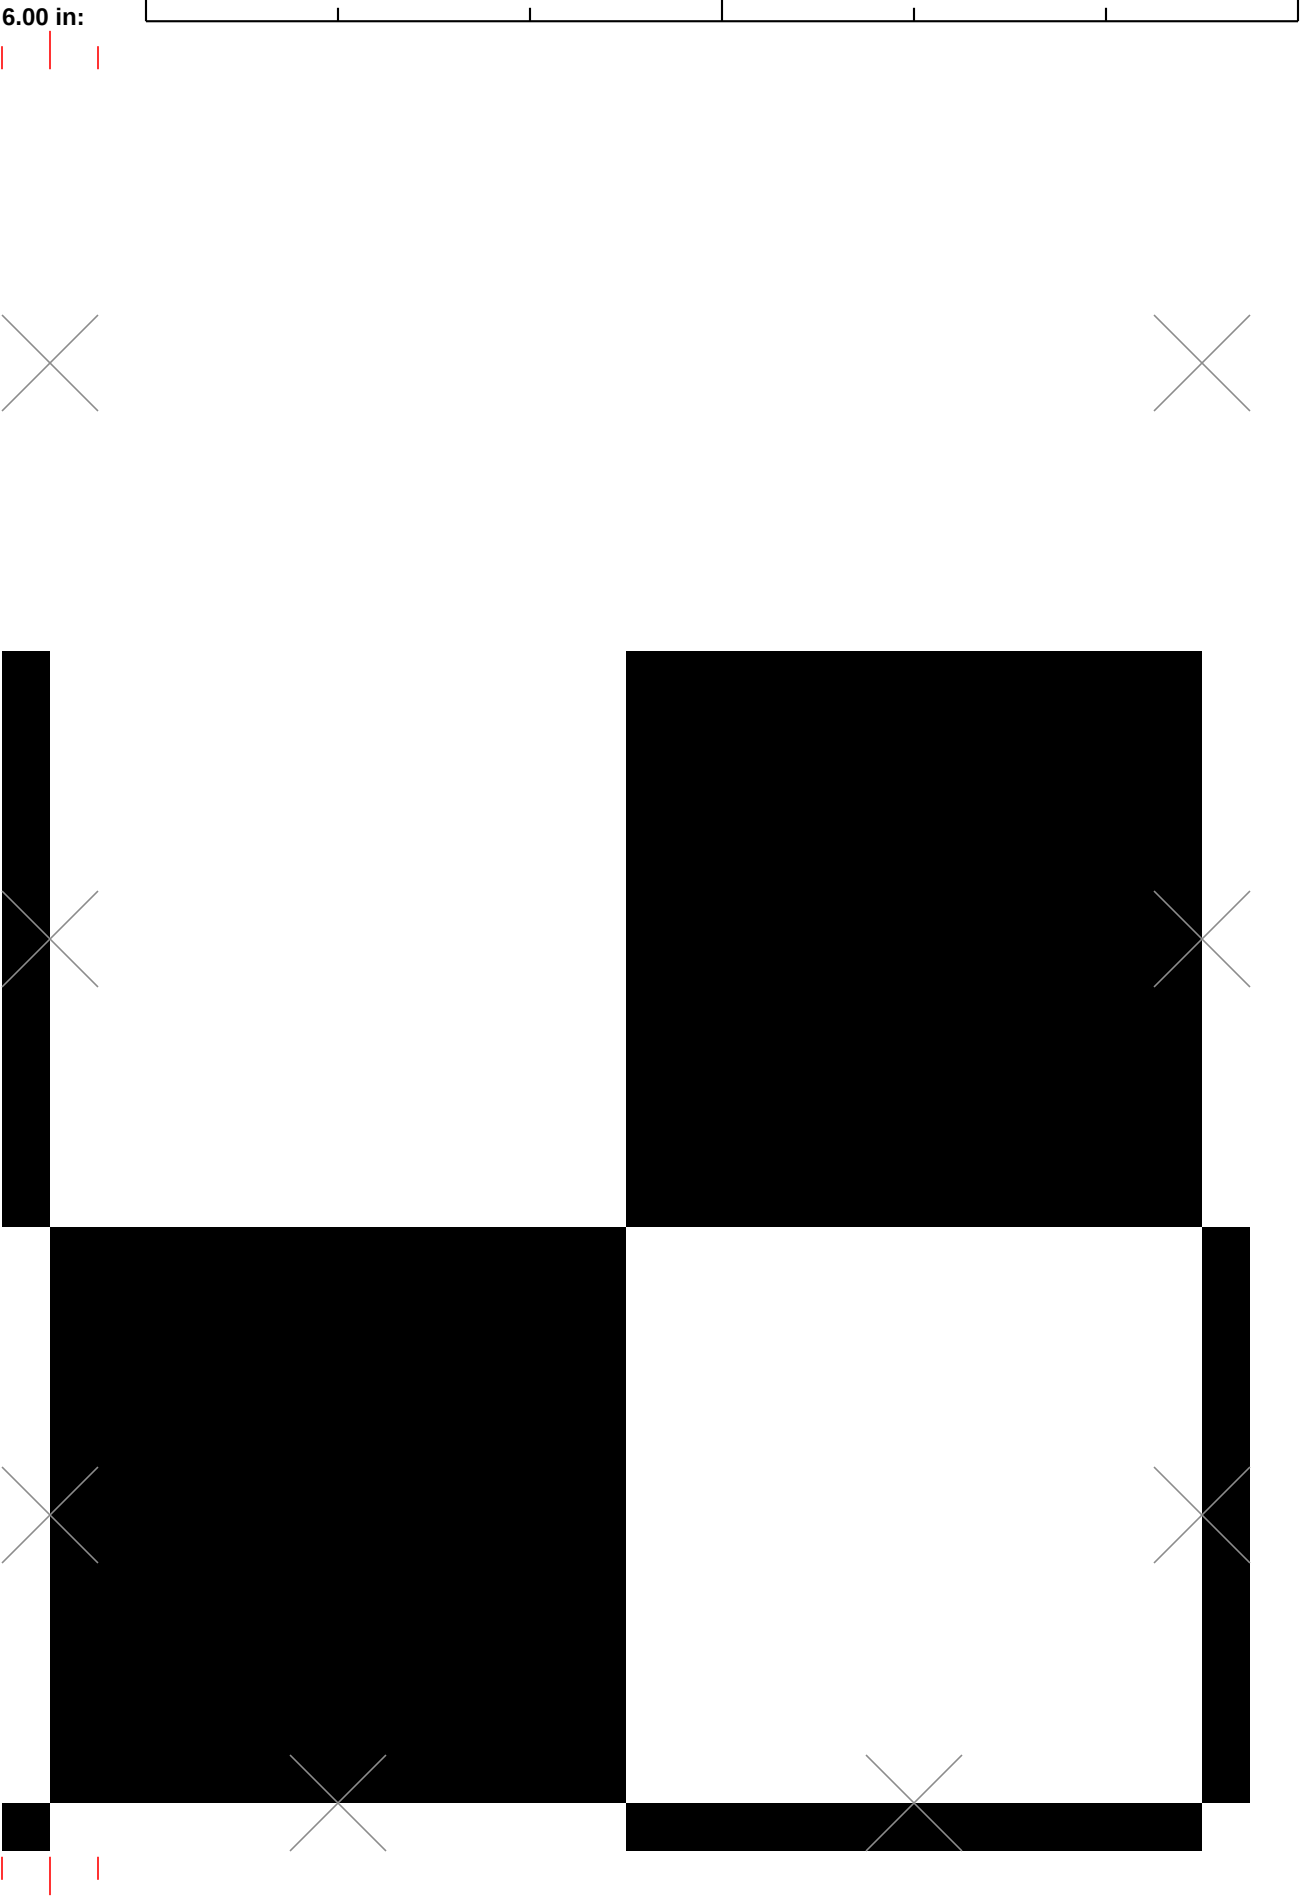

6.00 in:

Tile A4

Trim the left margin anywhere between the red ticks; lay over A3 (left).
Its right/bottom bands go under A5 and B4. Print at Actual size / 100%.

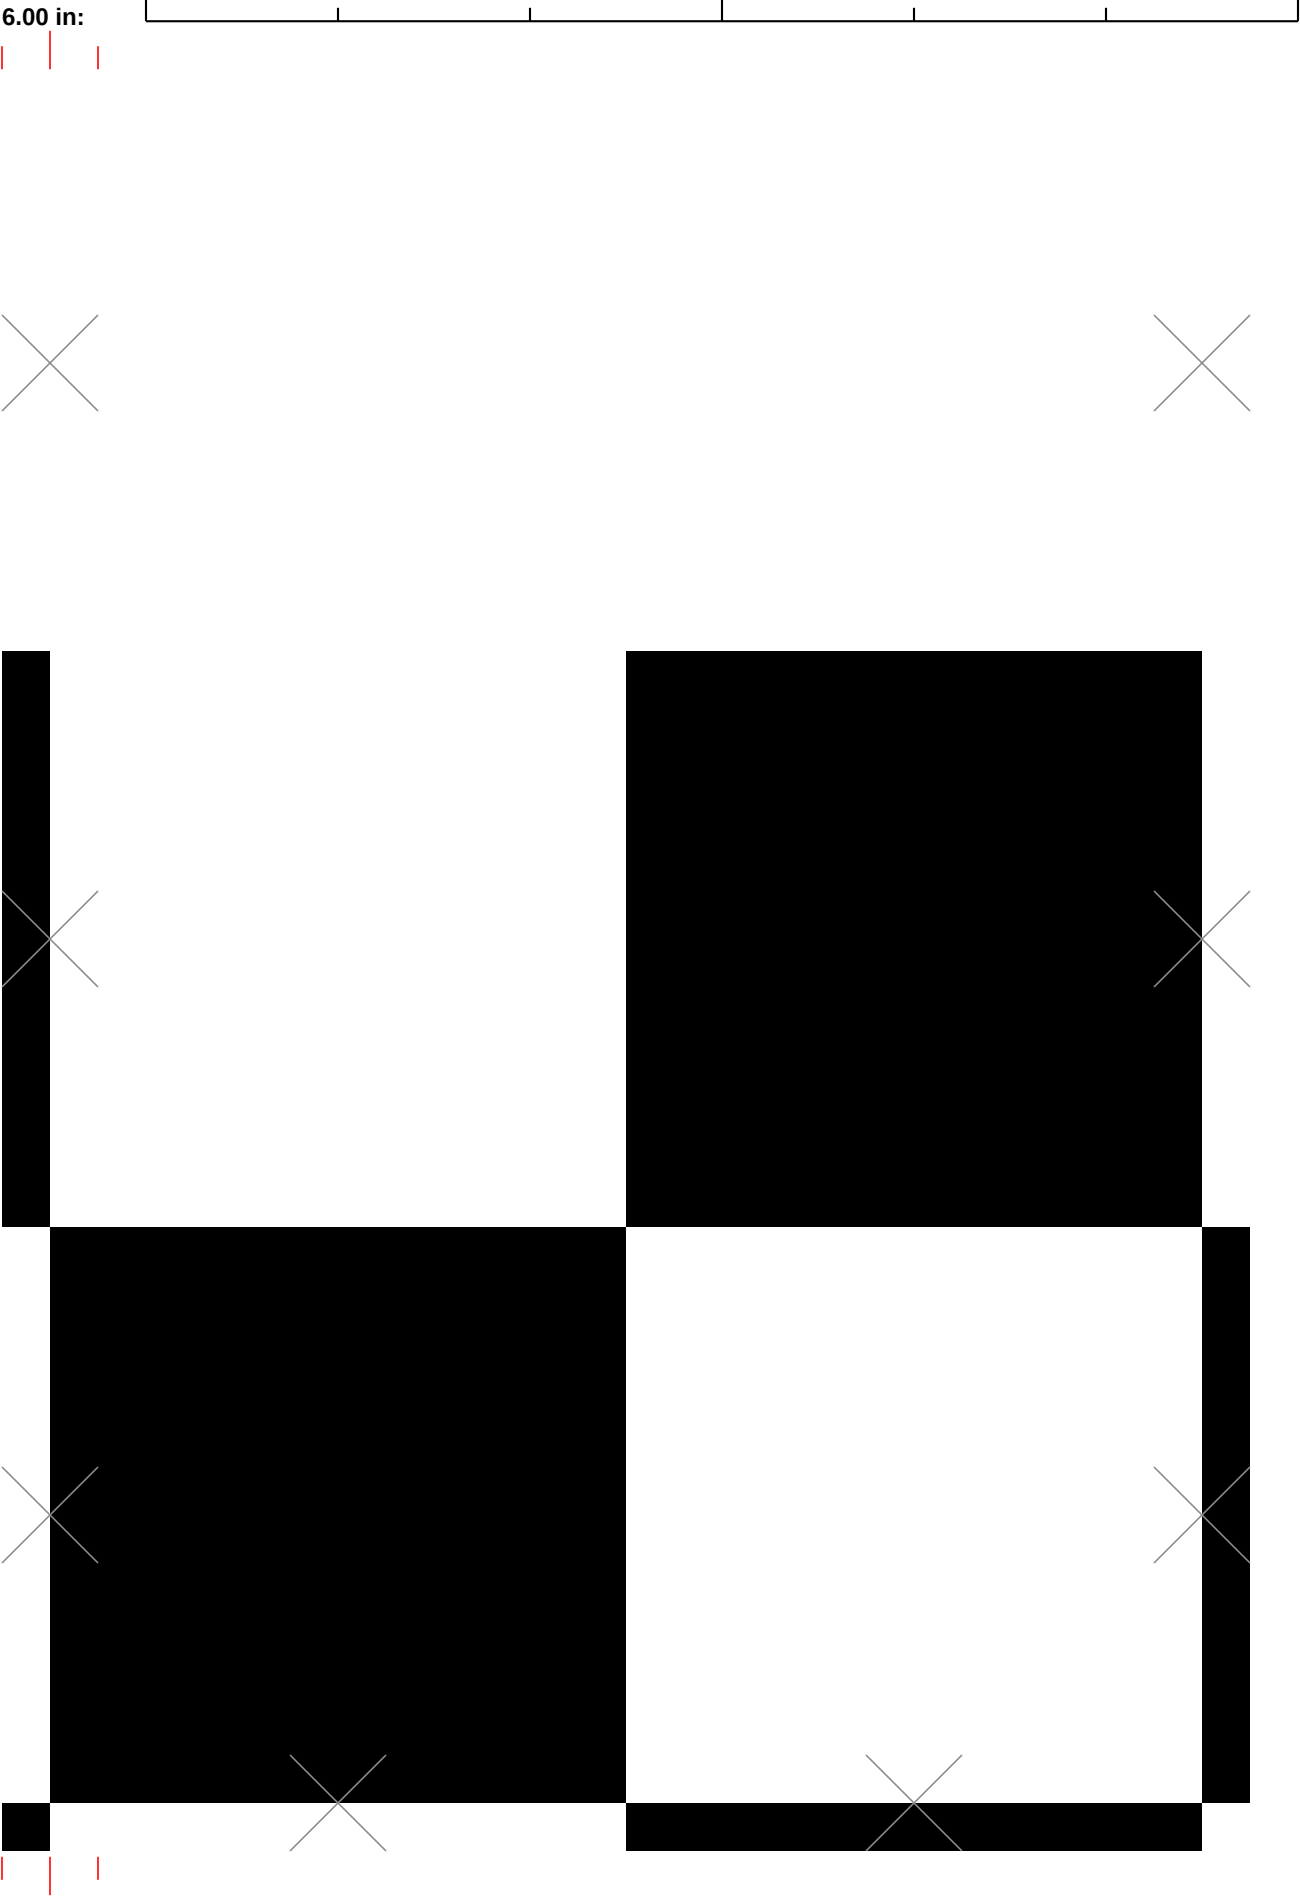

6.00 in:

Tile A5

Trim the left margin anywhere between the red ticks; lay over A4 (left).
Its right/bottom bands go under A6 and B5. Print at Actual size / 100%.

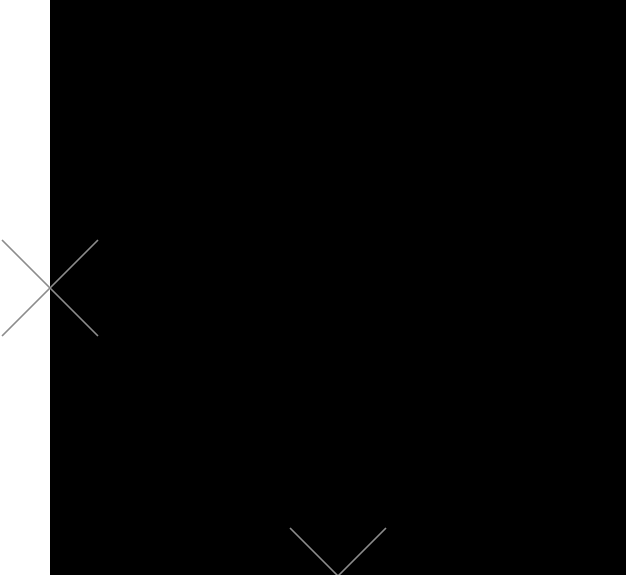

6.00 in:

Tile A6

Trim the left margin anywhere between the red ticks; lay over A5 (left).
Its right/bottom bands go under B6. Print at Actual size / 100%.

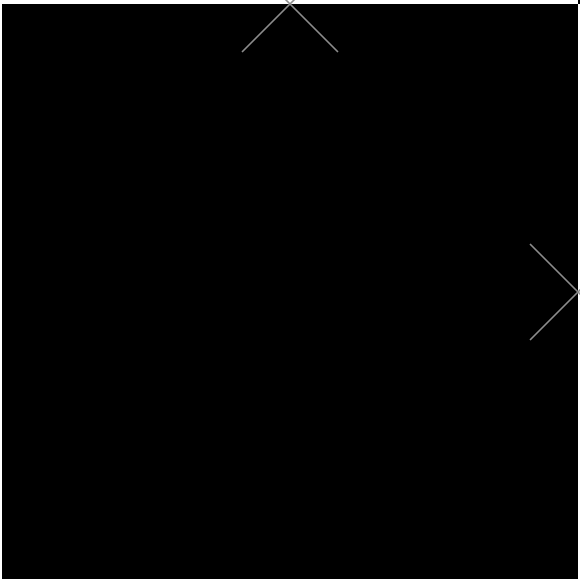

6.00 in:

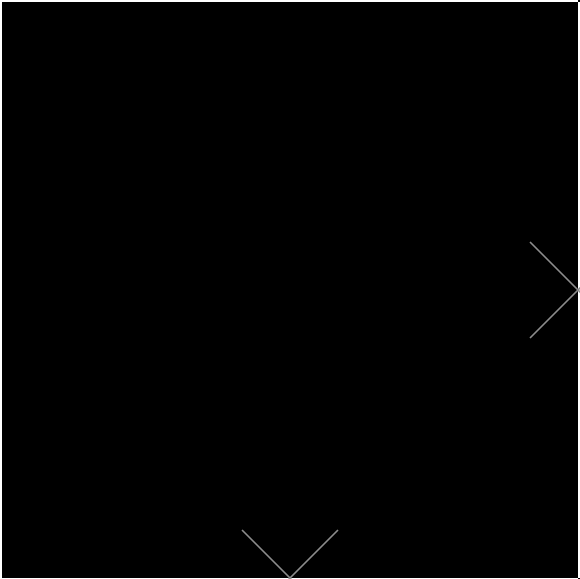

Tile B1

Trim the top margin anywhere between the red ticks; lay over A1 (top).
Its right/bottom bands go under B2 and C1. Print at Actual size / 100%.

6.00 in:

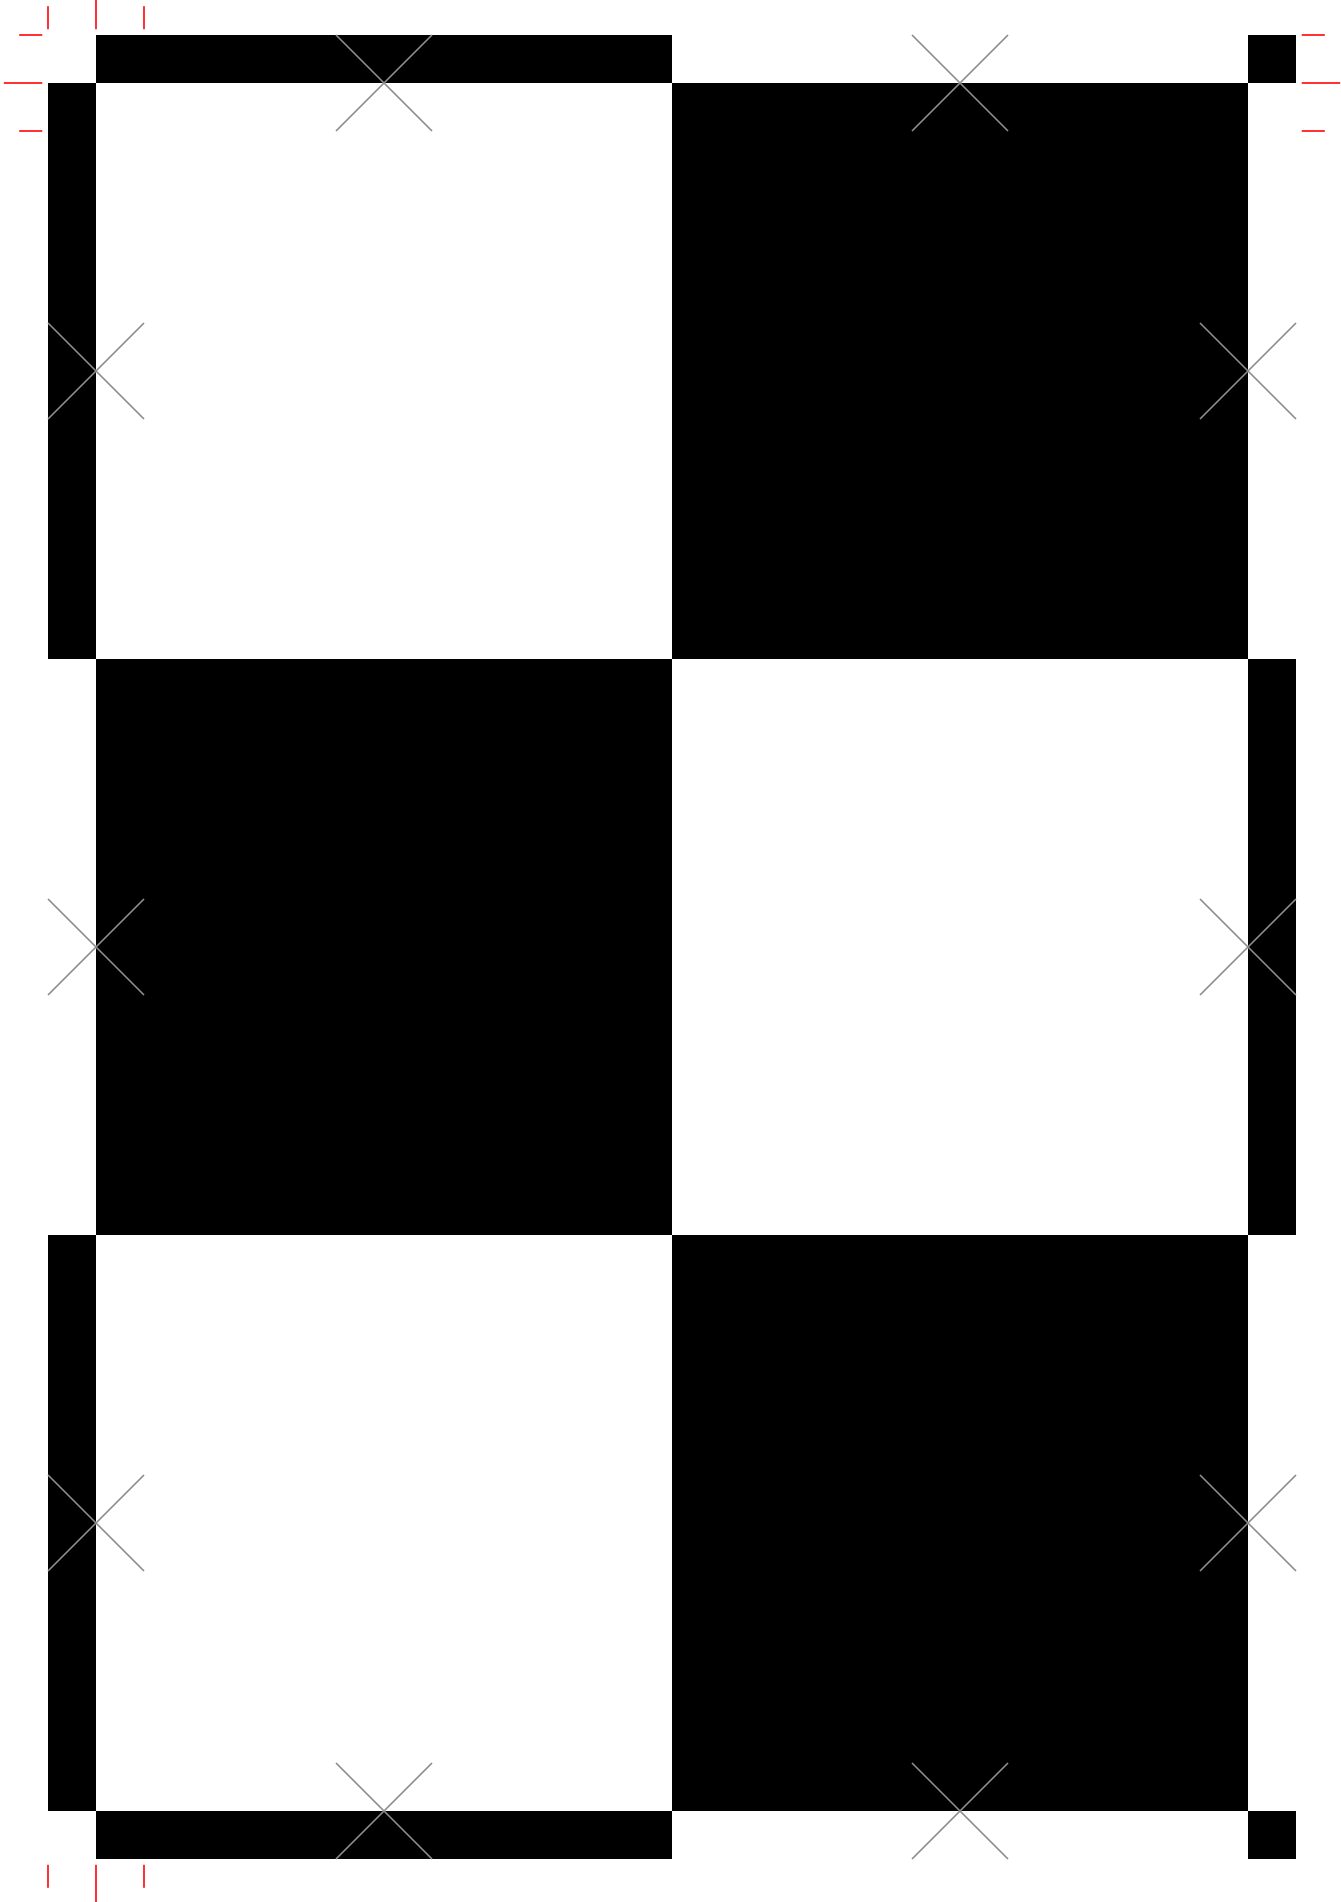

= 6.00 in

Tile B2

Trim the top and left margins anywhere between the red ticks; lay over A2 (top) and B1 (left).
Its right/bottom bands go under B3 and C2. Print at Actual size / 100%.

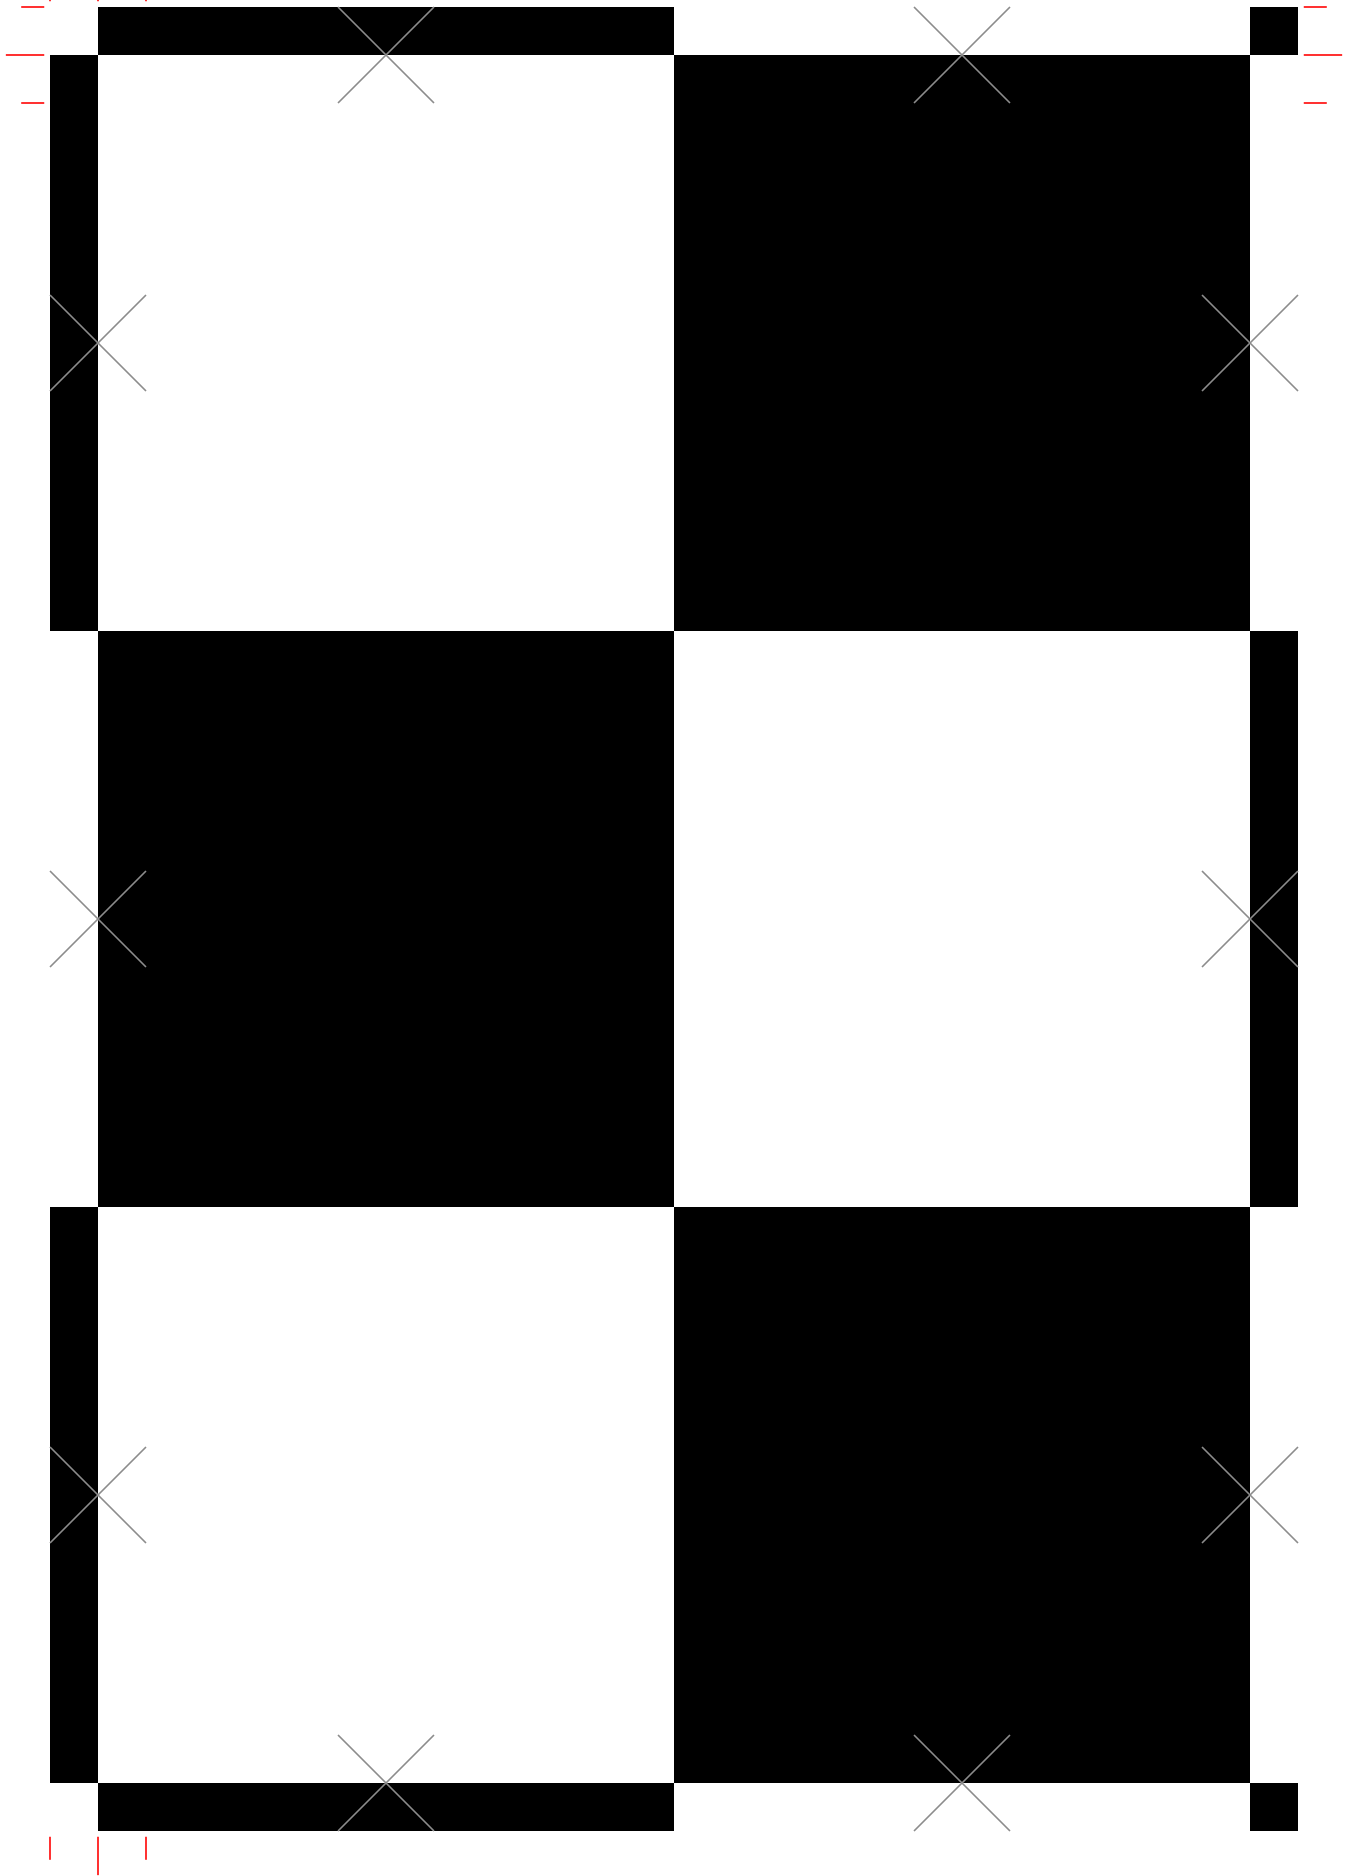

6.00 in:

Tile B3

Trim the top and left margins anywhere between the red ticks; lay over A3 (top) and B2 (left).
Its right/bottom bands go under B4 and C3. Print at Actual size / 100%.

6.00 in:

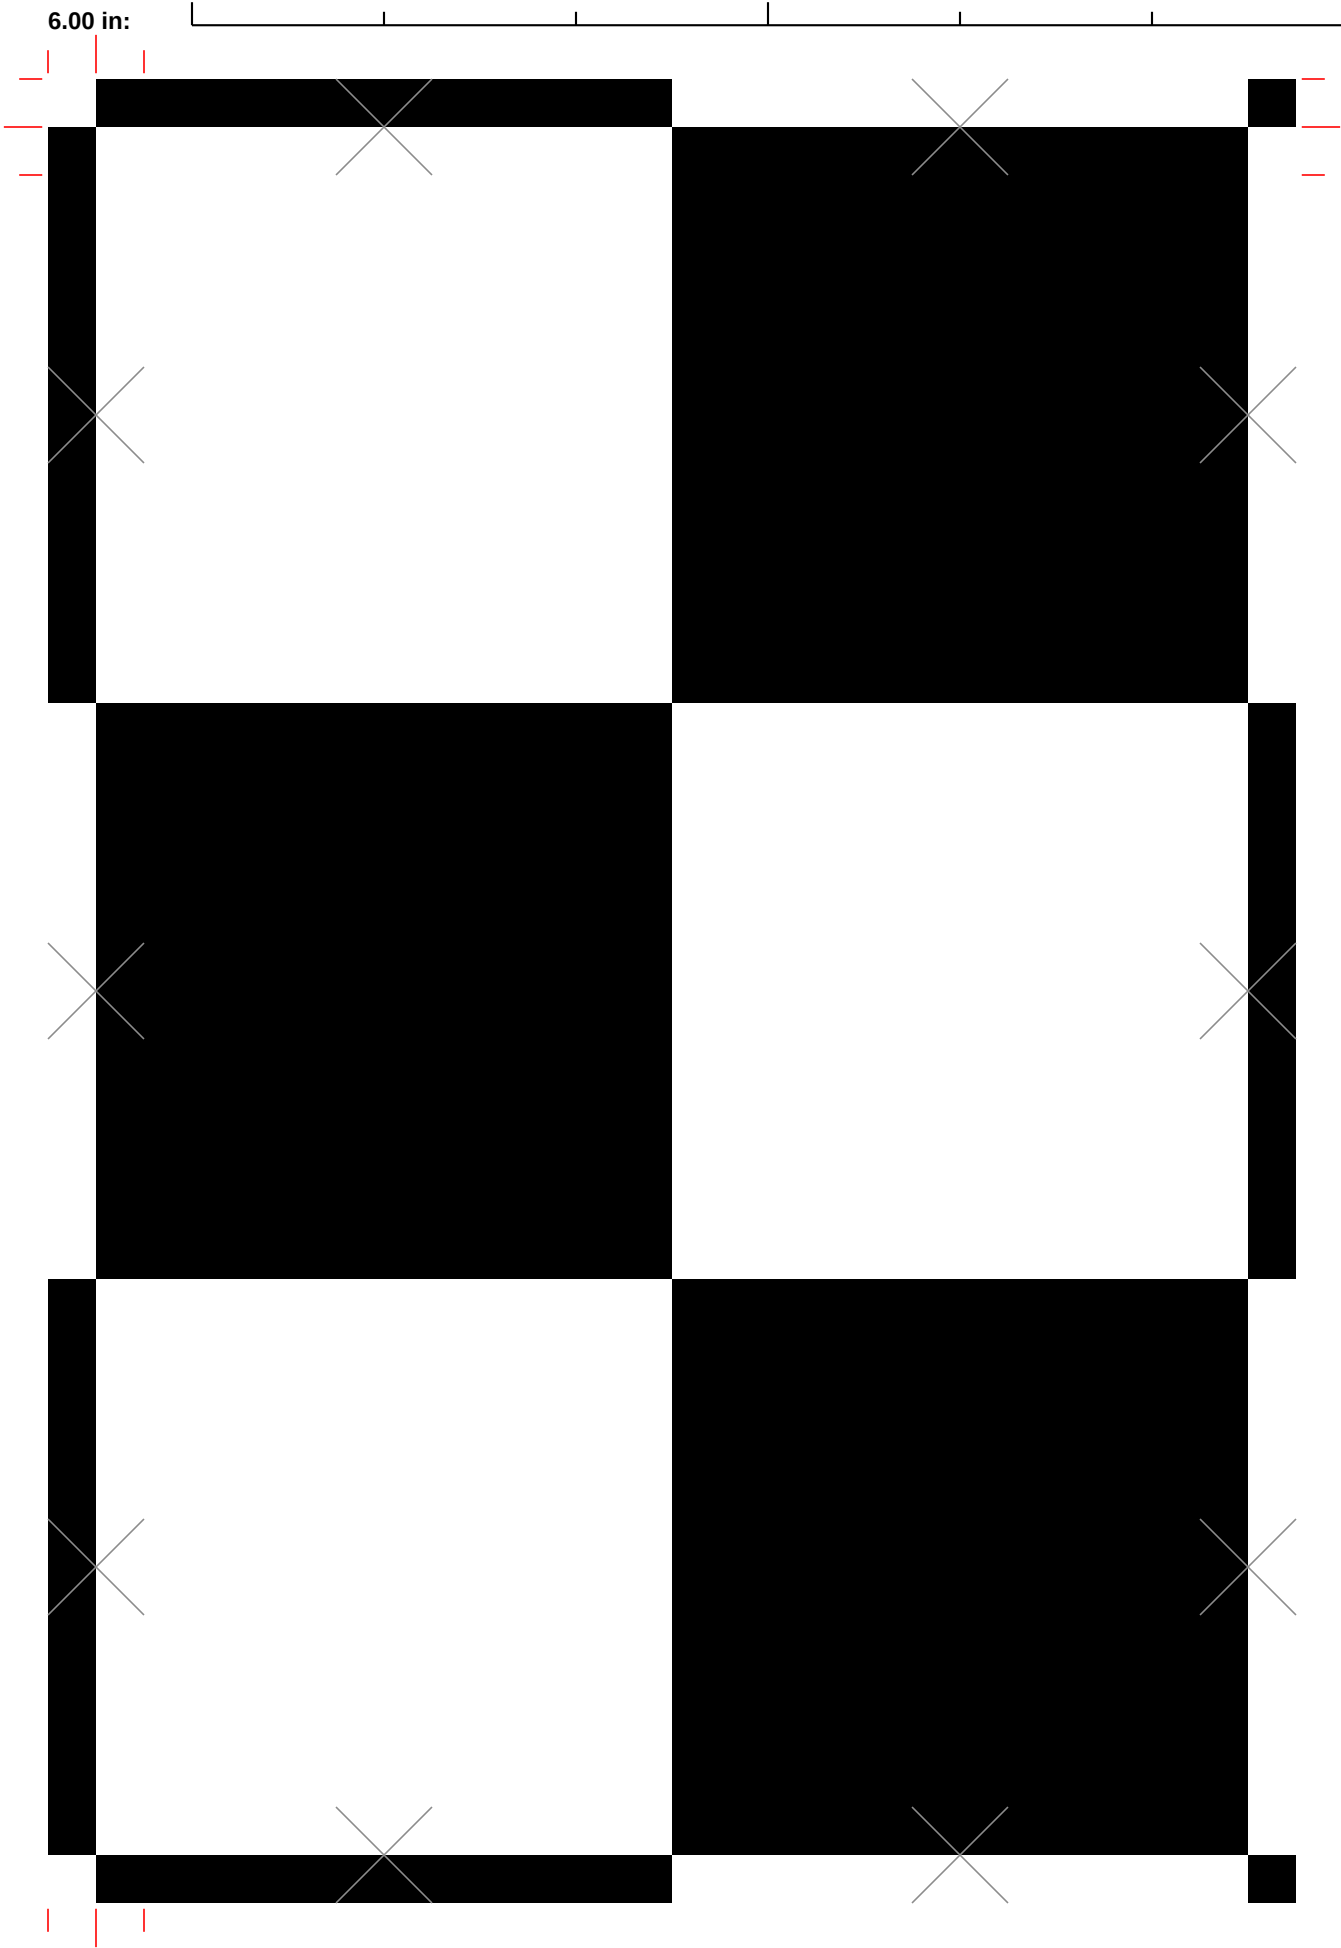

Tile B4

Trim the top and left margins anywhere between the red ticks; lay over A4 (top) and B3 (left).
Its right/bottom bands go under B5 and C4. Print at Actual size / 100%.

6.00 in:

= 6.00 in

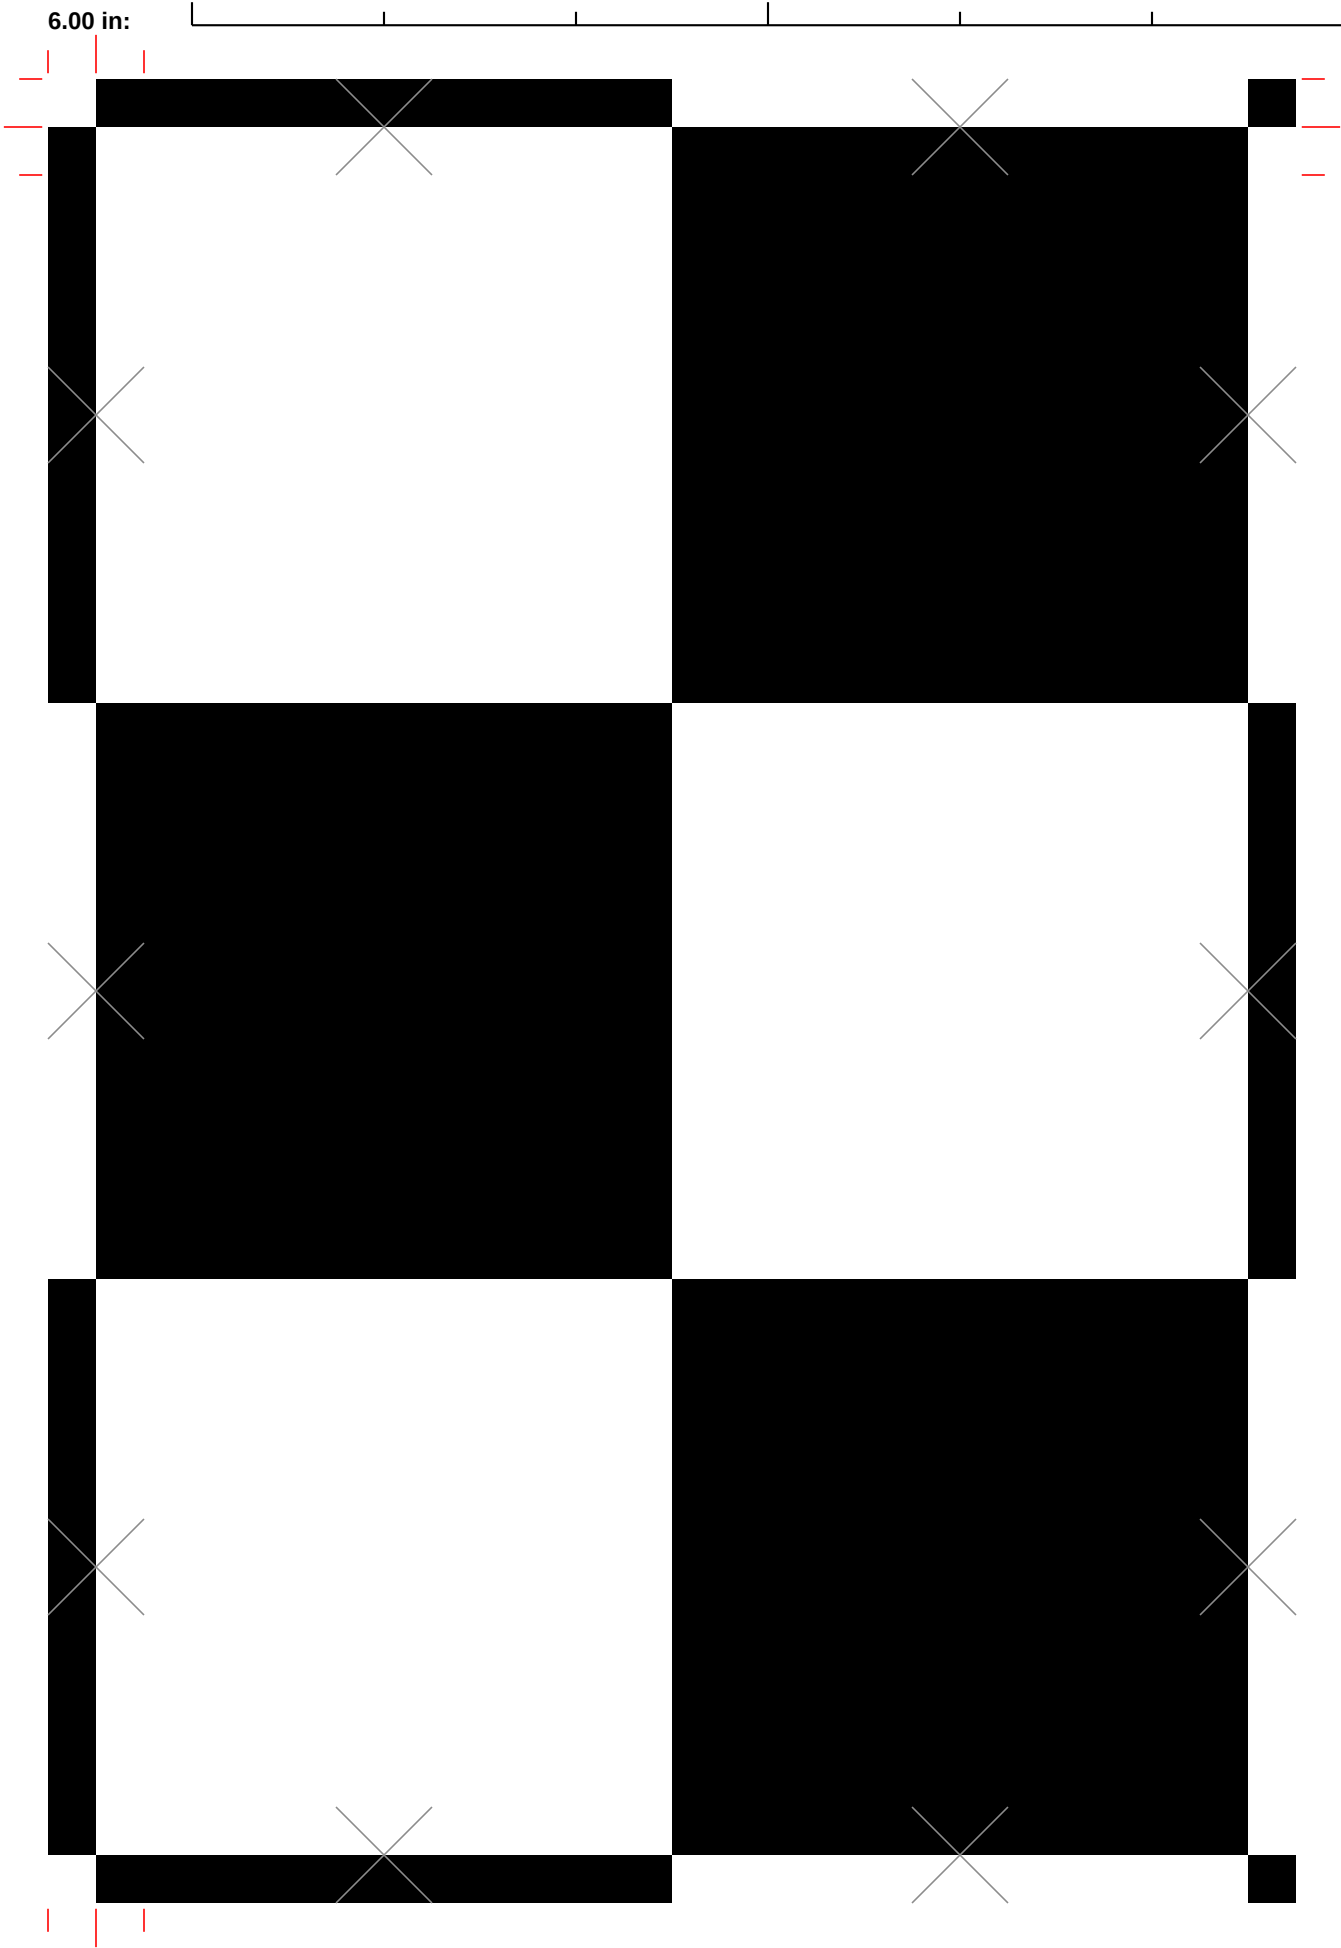

Tile B5

Trim the top and left margins anywhere between the red ticks; lay over A5 (top) and B4 (left).
Its right/bottom bands go under B6 and C5. Print at Actual size / 100%.

6.00 in:

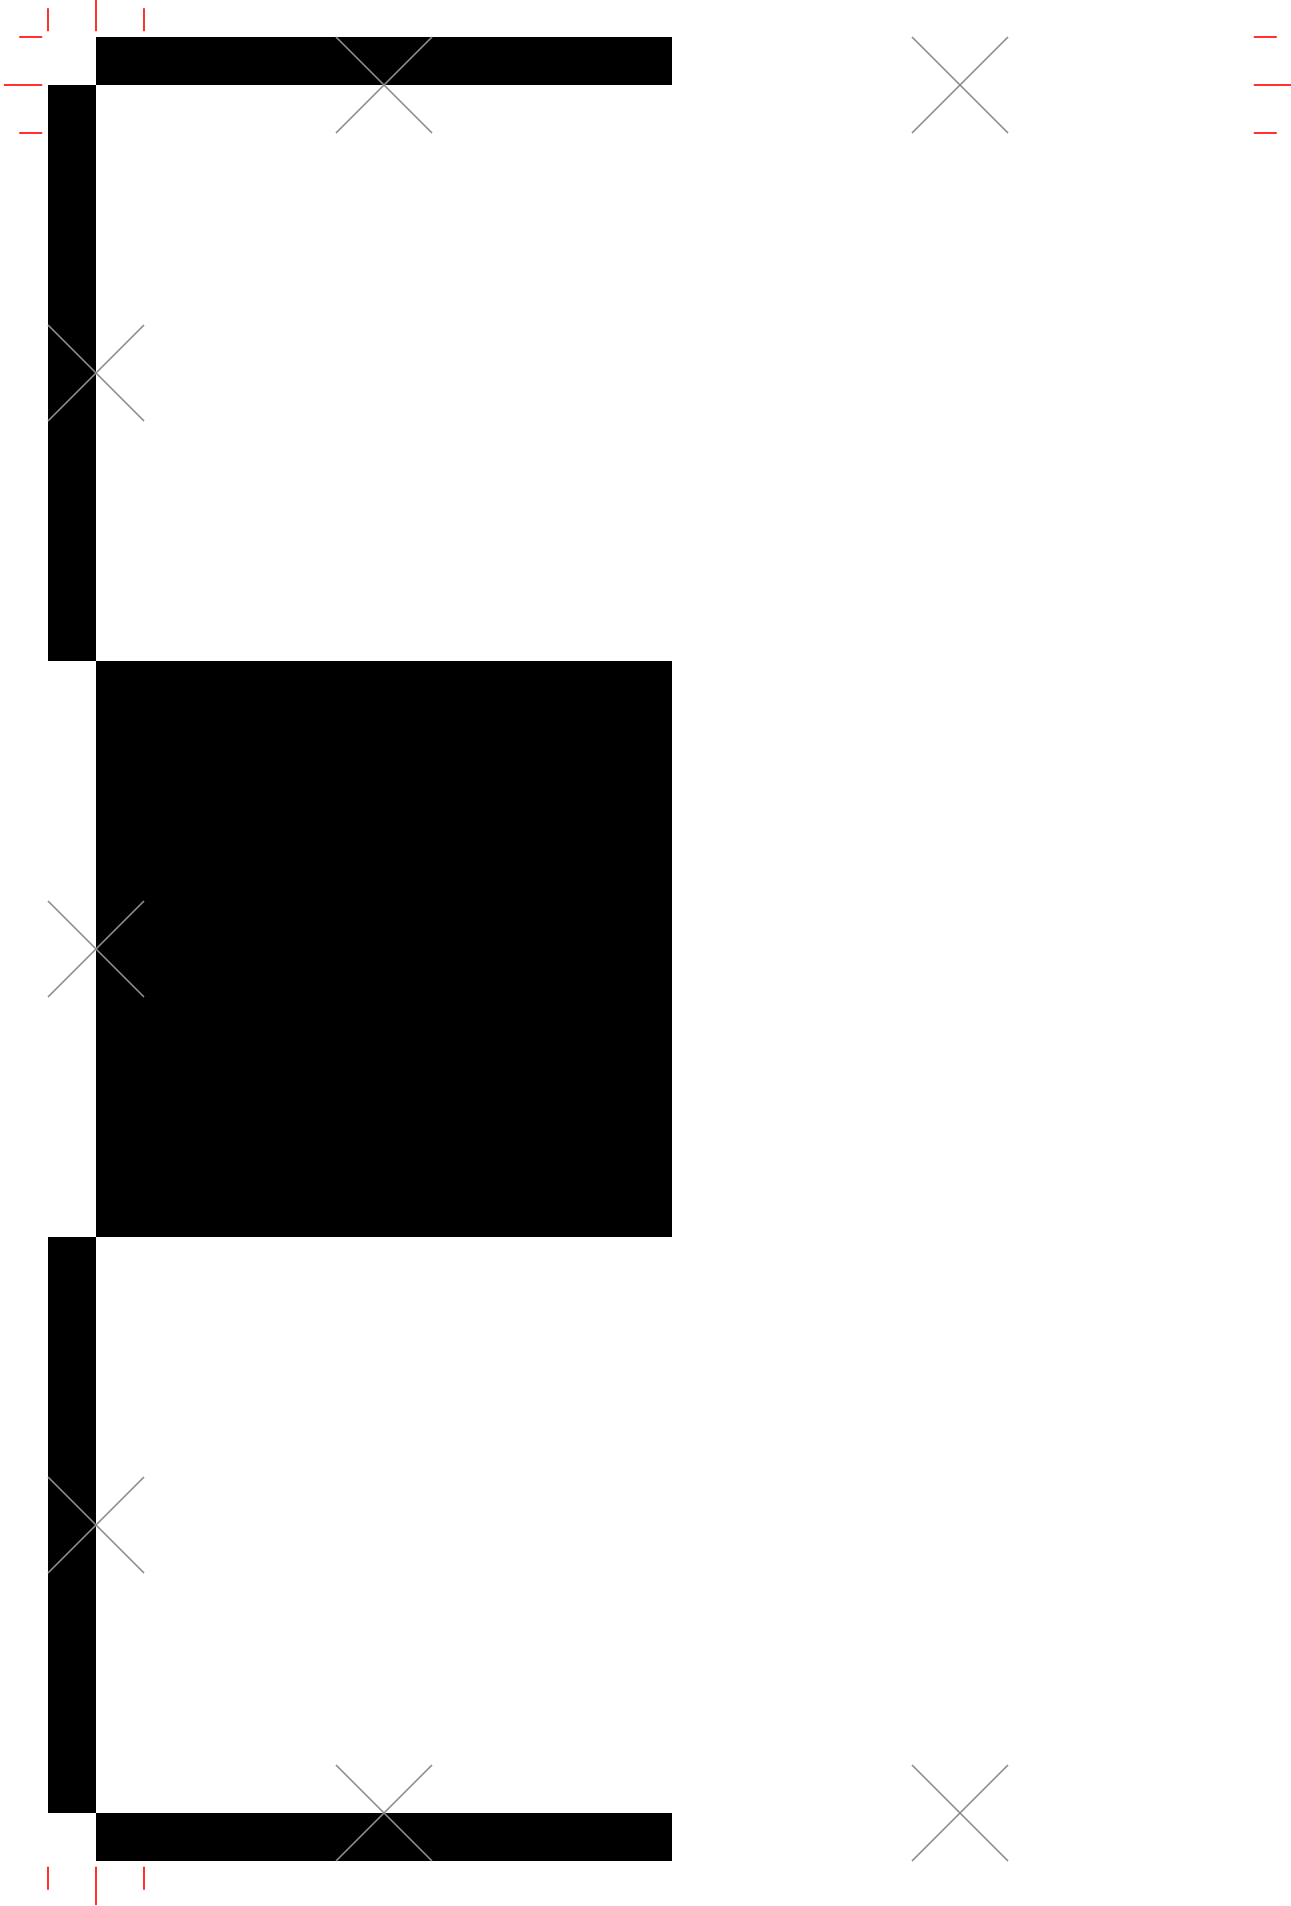

= 6.00 in

Tile B6

Trim the top and left margins anywhere between the red ticks; lay over A6 (top) and B5 (left).
Its right/bottom bands go under C6. Print at Actual size / 100%.

6.00 in:

= 6.00 in

Tile C1

Trim the top margin anywhere between the red ticks; lay over B1 (top).
Its right/bottom bands go under C2. Print at Actual size / 100%.

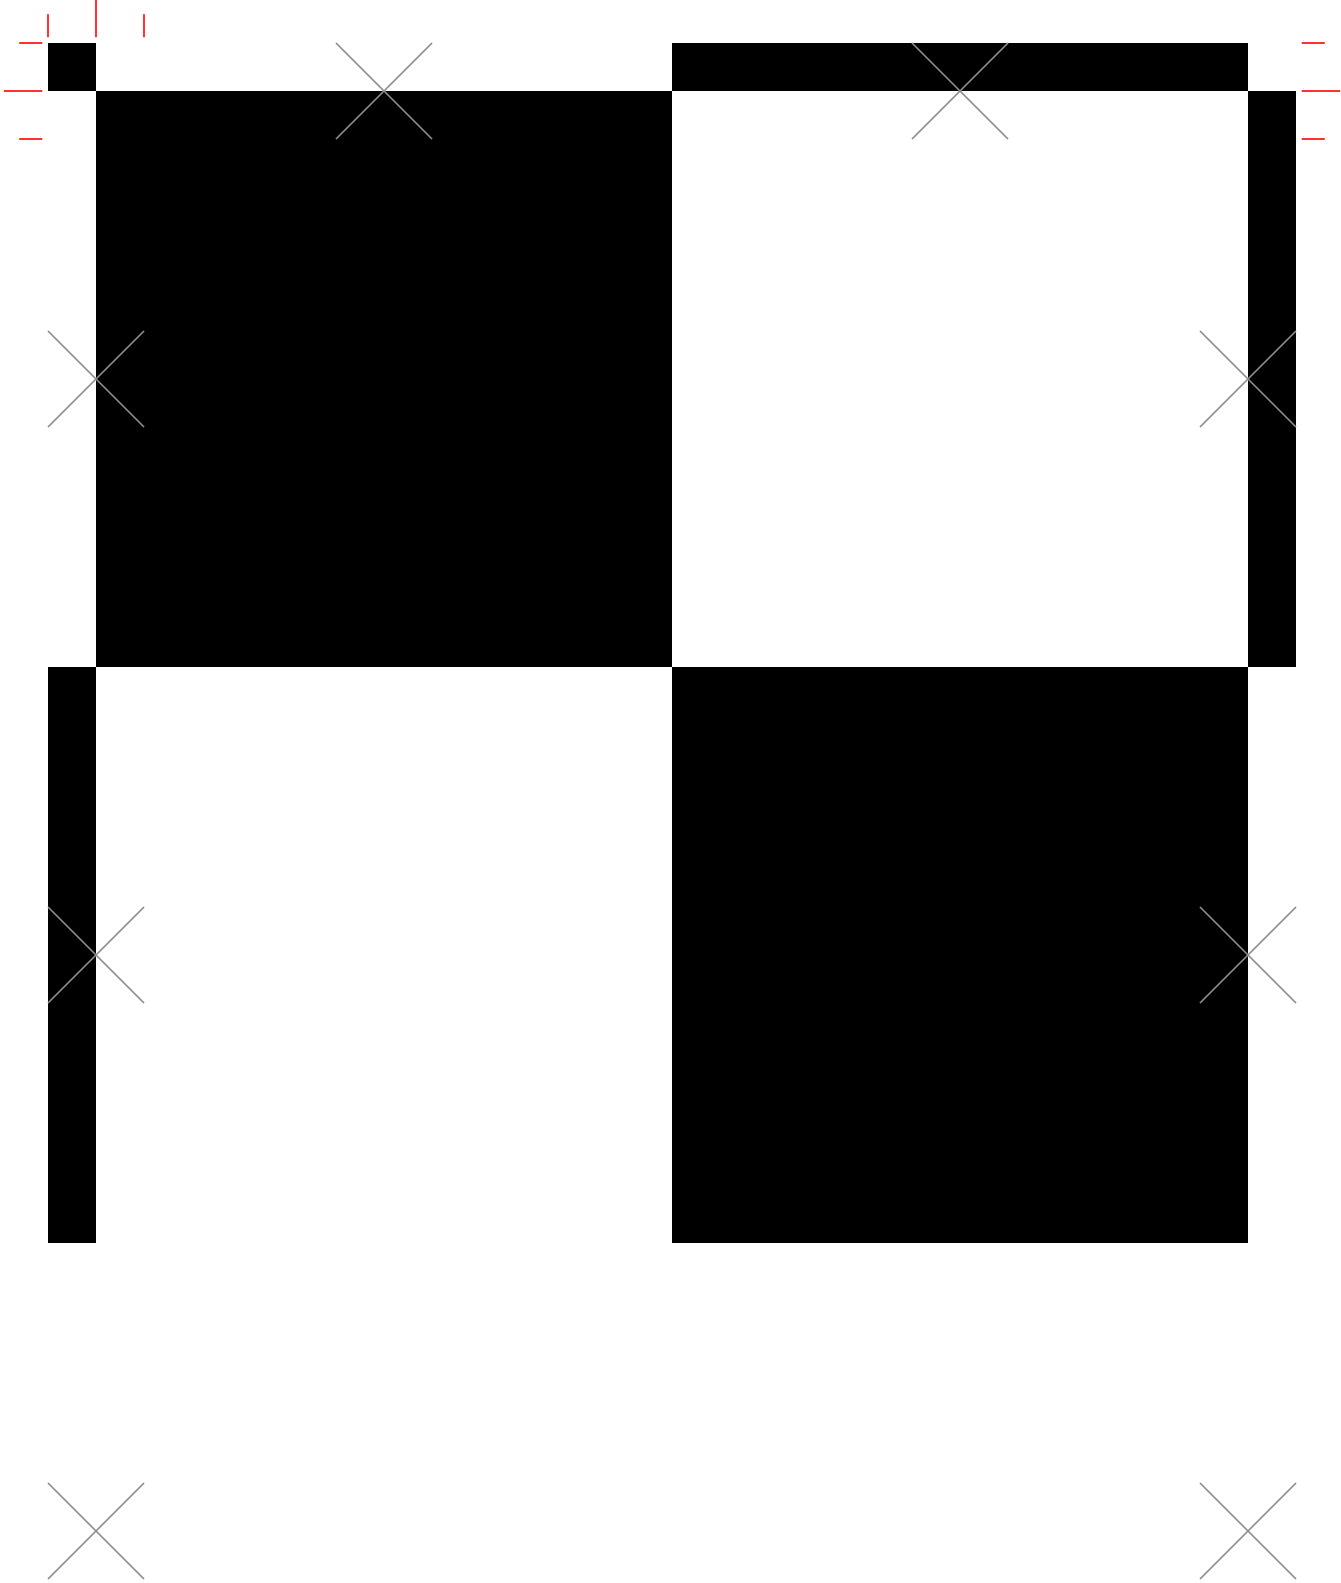

6.00 in:

Tile C2

Trim the top and left margins anywhere between the red ticks; lay over B2 (top) and C1 (left). Its right/bottom bands go under C3. Print at Actual size / 100%.

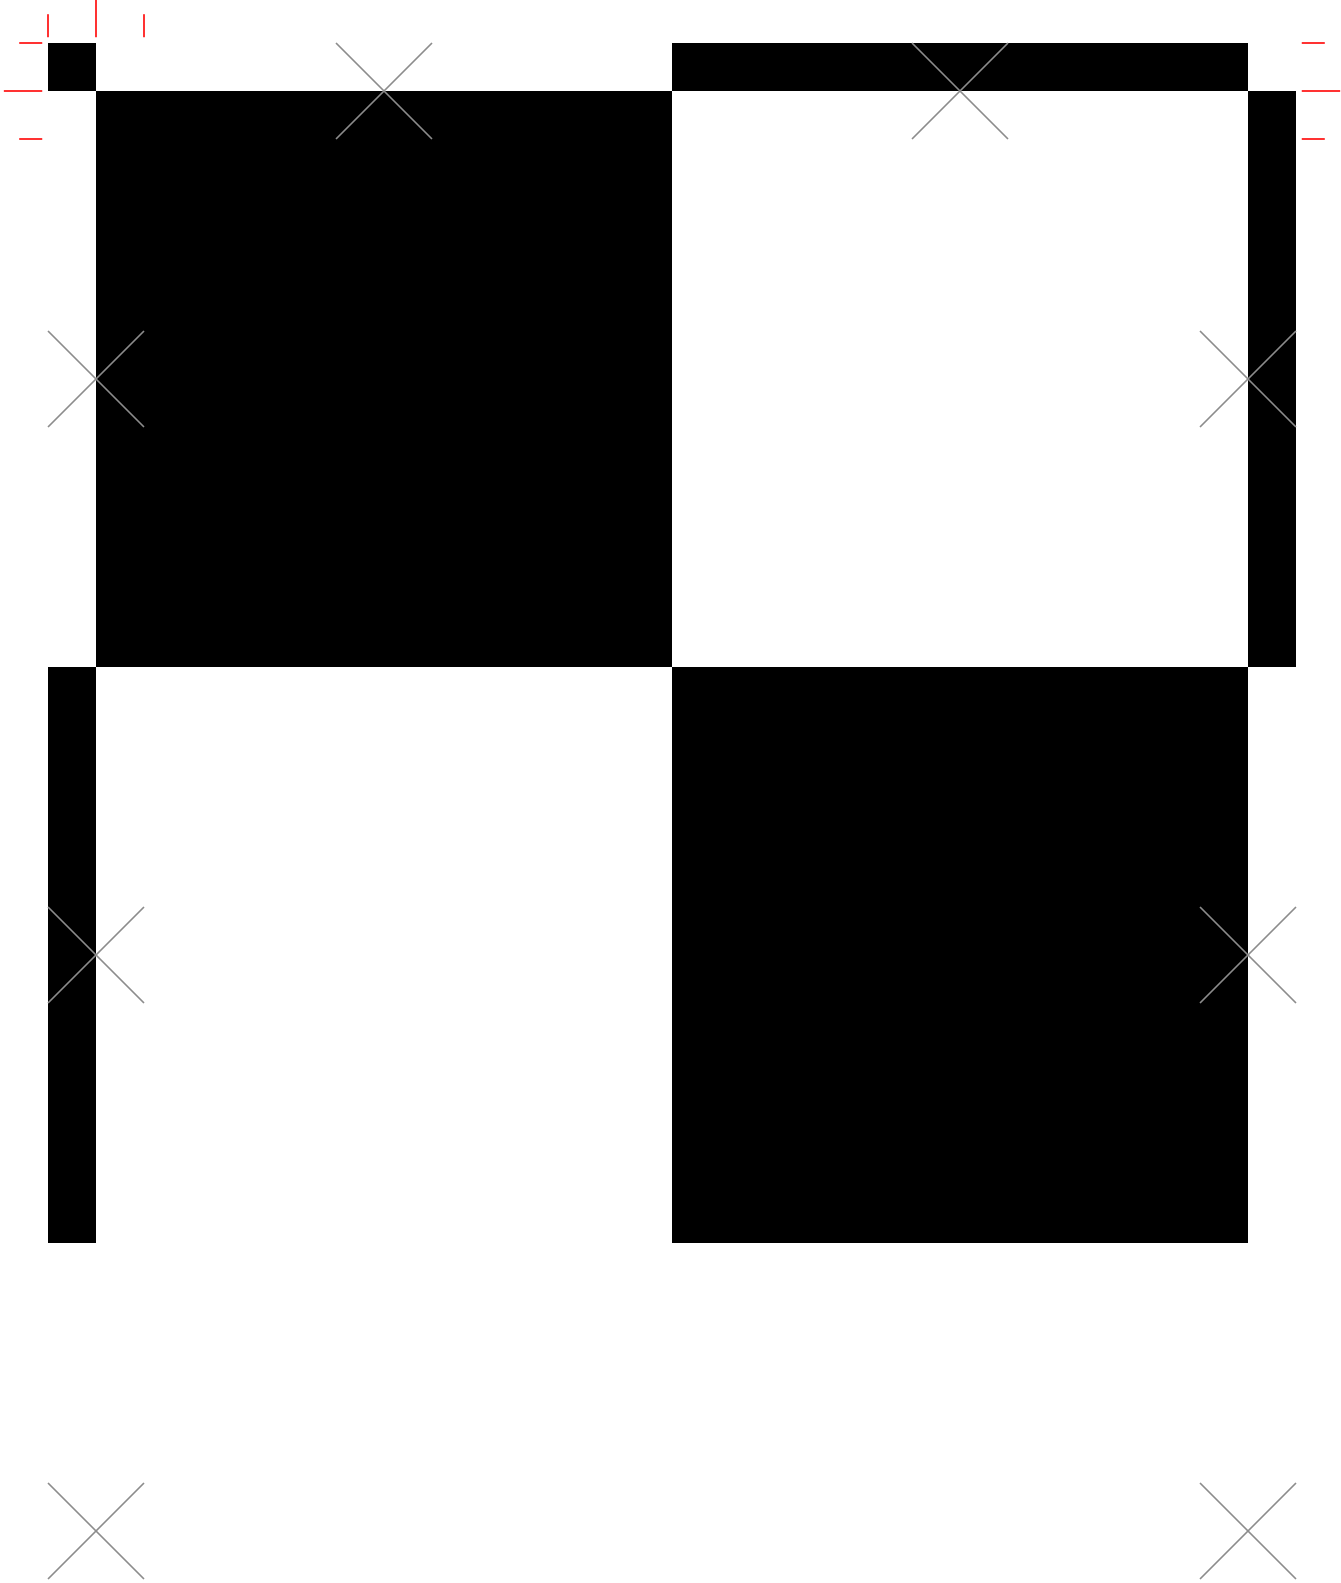

6.00 in:

Tile C3

Trim the top and left margins anywhere between the red ticks; lay over B3 (top) and C2 (left). Its right/bottom bands go under C4. Print at Actual size / 100%.

6.00 in:

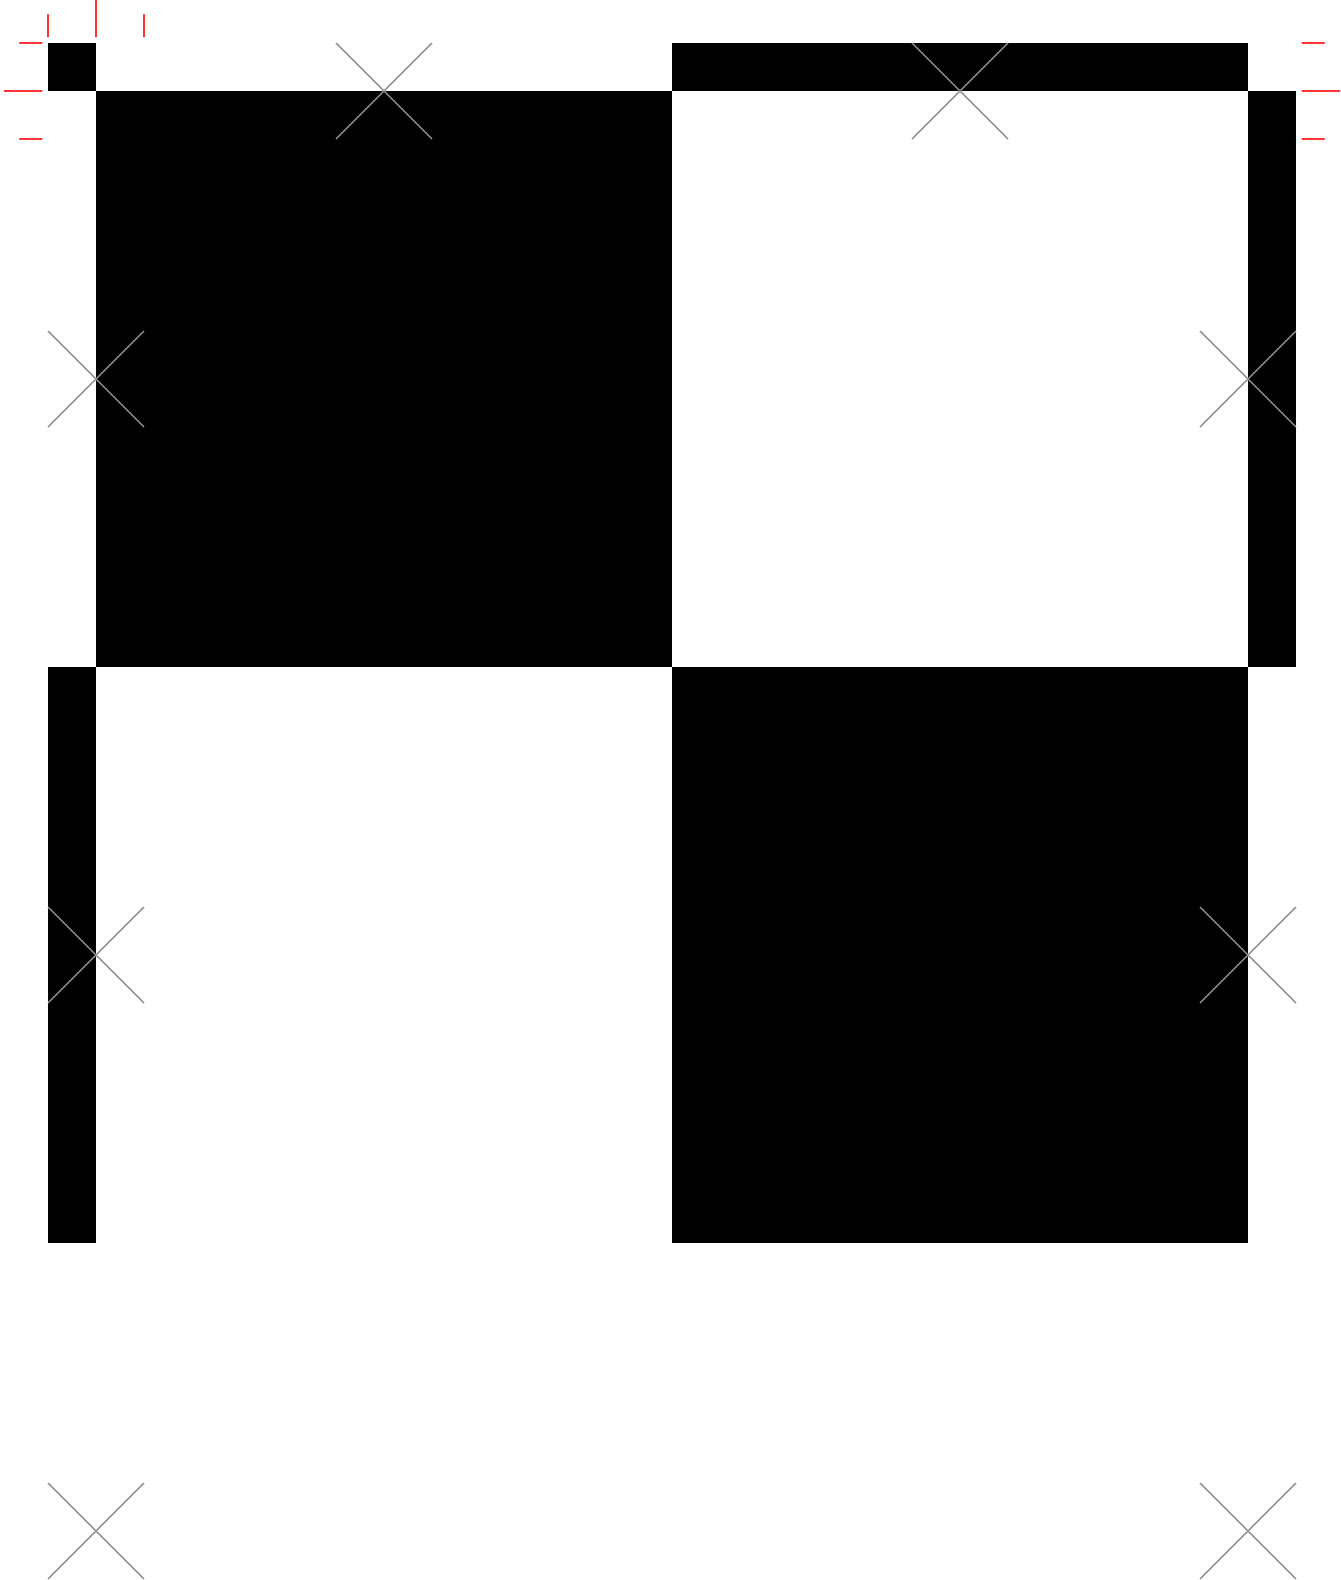

= 6.00 in

Tile C4

Trim the top and left margins anywhere between the red ticks; lay over B4 (top) and C3 (left). Its right/bottom bands go under C5. Print at Actual size / 100%.

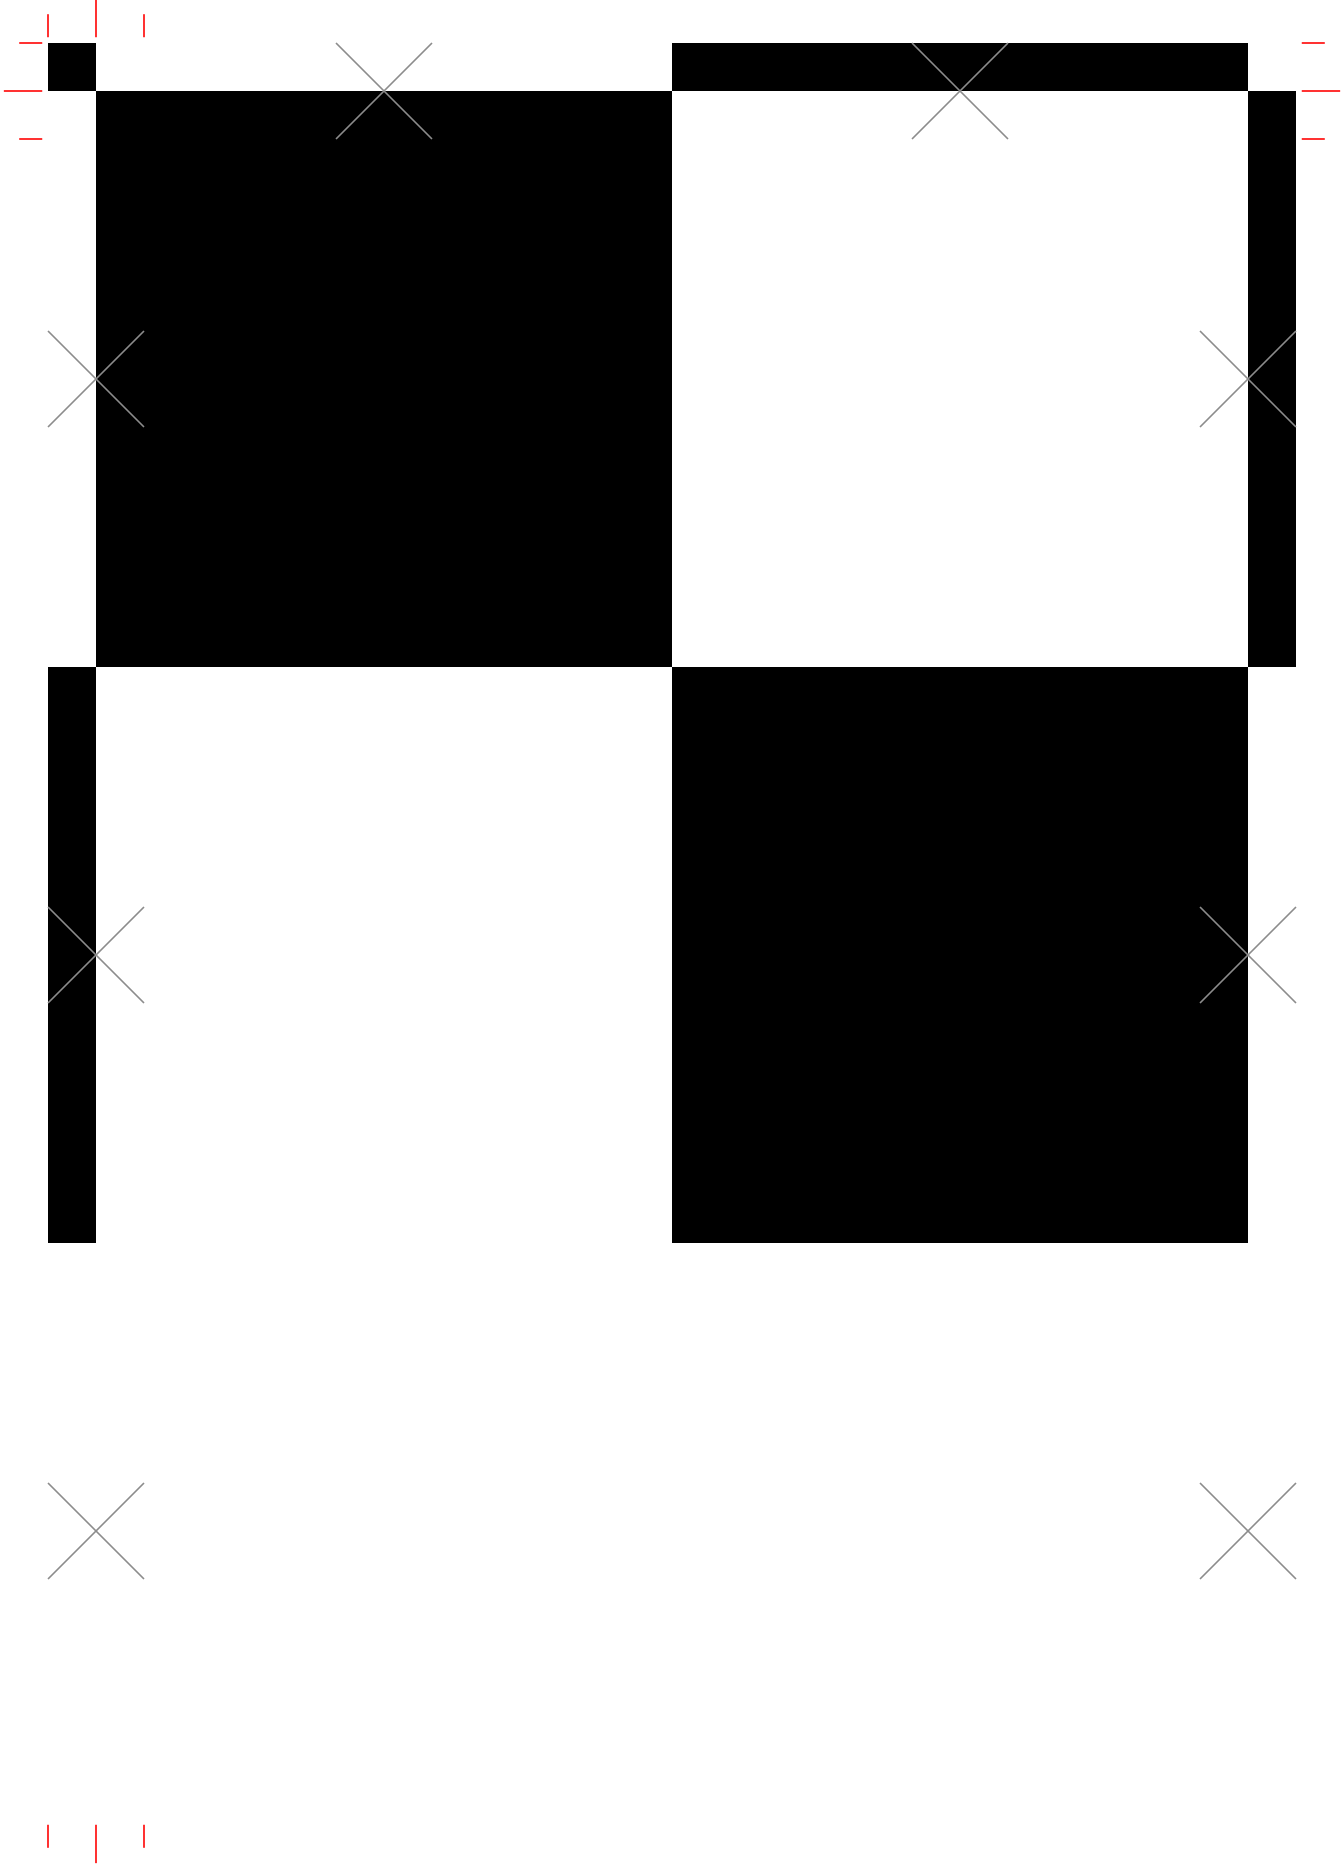

6.00 in:

Tile C5

Trim the top and left margins anywhere between the red ticks; lay over B5 (top) and C4 (left).
Its right/bottom bands go under C6. Print at Actual size / 100%.

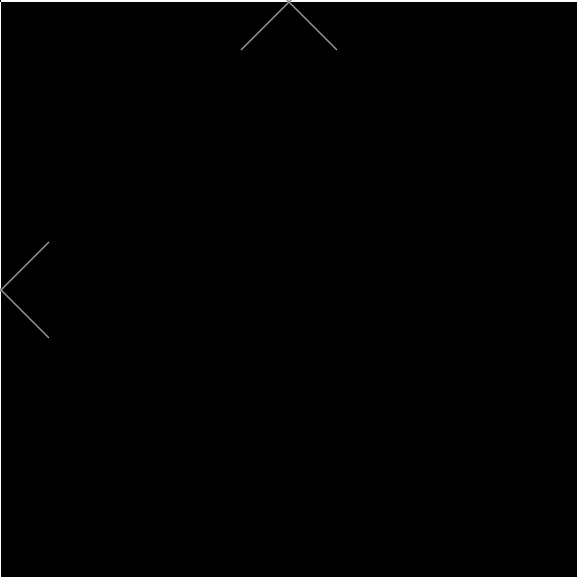

6.00 in:

Tile C6

Trim the top and left margins anywhere between the red ticks; lay over B6 (top) and C5 (left).
Nothing goes on top of this tile. Print at Actual size / 100%.
